

Metal Fabrication | Industrial Ventilation

PRODUCTS AND SERVICES

Since its incorporation in 1993, IVI, Inc. has grown into a full-service industrial ventilation manufacturer with three locations in the United States. Known for using the latest technology and having a highly skilled multi-disciplinary team, we excel in industrial ventilation and metal fabrication.

OUR TEAM

- Mechanical, Industrial, Environmental and Civil/Structural Engineers
- Mechanical and Structural CAD Designers
- An experienced Quality Control Team
- Project Management Groups including Managers, Field Foremen and Field Supervisors
- A Shop Fabrication Group including Structural Fabricators, Painters, Sheet Metal Fabricators, Sheet Metal Journeymen and Certified Welders
- Air Testing and Balancing Technicians

PRODUCTS AND SERVICES:

- Air Surveys
- Baghouses
- Belt Conveyors
- Bucket Elevators
- Catwalks
- CFD Modeling
- Classifiers
- Collection Hoods
- Cyclones
- Drop-out Boxes
- Dust Collection Systems
- Exhaust Stacks
- Guarding
- Maintenance
- Mezzanines, Platforms and Stairs
- Process Air Systems
- Tanks & Silos
- Structural Steel
- Testing and Balancing
- Trim and Waste Air Systems
- AWS Certified Weld Inspector
- Knowledge of PM 2.5 Standards

- IVI differs from other industrial ventilation companies in that we provide start-to-finish, air quality control solutions including engineering and design – two key components to a turnkey solution that keep costs affordable and efficiency high.
- Our engineering and design teams have the expertise to develop customized solutions for your facility including mechanical, industrial and civil/structural engineering expertise.
- Our team and facilities have the capability to fabricate from a variety of metal materials including: stainless steel, aluminum, galvanized steel, hot and cold rolled mild steel, COR-TEN® and structural steel.
- Our project managers, field foremen and installation crews ensure all necessary equipment and machinery are available at the job site and ready for installation. They install your project with the highest commitment to safety.
- IVI can provide a monthly, quarterly or annual industrial ventilation maintenance plan to ensure your ventilation system is running as smoothly and efficiently as possible. Such plans include scheduled air surveys, airflow testing and balancing, and additional source identification.
